HARBINGER WARS 3

H.A.R.D. Times Loom for the Valiant Universe

As if the war between the Harbinger Foundation, Bloodshot, and the Renegades wasn't volatile enough, it's about to take a particularly dangerous turn in ***Harbinger Wars #3*** as Project Rising Spirit calls in its secret weapons development project... aka H.A.R.D. Corps. But are they a weapon that even Project Rising Spirit cannot control?

"These guys are dangerous. They are *not* covert operators and they are *not* stealthy. When it comes to a precarious situation like the Harbinger Wars, they are a weapon of last resort," Valiant CEO and Chief Creative Officer *Dinesh Shamdasani* said. "We keep saying internally that the H.A.R.D. Corps are not a scalpel. They're more like a landmine. Dropping them into the mix of ***Harbinger Wars*** is going to ensure things are explosive—and, rest assured, they are *not* an element that Bloodshot, Harada, or the Renegades will be anticipating."

Shamdasani offered some insight into the development of ***Harbinger Wars,*** and the inclusion of H.A.R.D. Corps in this pivotal storyline. "***Harbinger Wars*** is something we've been working on for a long time, essentially since day one. In many ways, ***Harbinger Wars*** was being planned before ***X-O Manowar #1*** hit the stands last May. Having said that, in some respects, it's still being today because we live by the idea that the best idea wins.

"We have a plan for where we are going that is several years out. There is an overarching structure for the growth of the line that is in place for the next several years and we have a good sense of the specifics of which pieces go where. But the plan is constantly in flux and can change wildly depending on what ideas we find during the process of telling the stories.

"We knew we wanted to introduce a big character from our history in ***Harbinger Wars*** and as far back as last year we had been talking about options, H.A.R.D. Corps were very near the top of that list. As the story specifics came together it became clear that the most exciting choice was going to be the return of the H.A.R.D. Corps. And having now seen the book we couldn't be more happy or excited. H.A.R.D. Corps are a lot of trouble for the Valiant Universe—a lot of things are going to get broken.

"The theme that we kept returning to in developing ***Harbinger Wars*** was consequences," Shamdasani explained. "An event of this size had to have consequences that continued resonate in the future. The H.A.R.D. Corps are one of our chief agents of consequence in ***Harbinger Wars***. They are very much the anthesis of a scalpel. They're going to go in and things are going to get very messy very quickly.

"Coming out of ***Harbinger Wars,*** we have big plans for H.A.R.D. Corps. They don't fare well in ***Harbinger Wars*** and they're going to be doing some recruiting soon afterwards. They will continue to be a active component of the universe—and everywhere they go, they'll be a wrecking ball."

As it turns out, even the members of H.A.R.D. Corps aren't very sure of the team, its motives, and its methods. "The first member that we meet straightaway at the close of ***Harbinger Wars #2*** is Charlie Palmer -- an over-the-hill veteran of the original H.A.R.D. Corps who thought he'd finally closed the book on that chapter of his life," Valiant Marketing and Communications Manager *Hunter Gorinson* said. "Unfortunately for him, Project Rising Spirit still has ownership over the H.A.R.D. Corps tech hard-wired into his system—and they're determined to put him back to work, whether he likes it or not. And without giving too much away, let's just say he won't be too happy to see his former comrades-in-arms. This is a pretty rough crew -- and not all of them are to be trusted with the enormous power they wield."

What are the team's abilities—and how do these abilities make them so dangerous? "The H.A.R.D. Corps exhibit a wide-array of classic superhuman abilities—flight, enhanced strength and durability, energy projection and more—but with one crucial catch. They can only use one power at time," Gorinson explained. "So they can fly through the air, but a high-impact landing might kill them if their timing is off. This kind of risk has made joining H.A.R.D. Corps desirable only to certain more extreme personality types—and, with so much on the line for them each they step into the field, collateral damage is not something that concerns them. That makes them not only a very dangerous adversary, but a highly unpredictable one as well. To say they take no prisoners would be an understatement."

Exactly how do they become involved in ***Harbinger Wars***? "When we meet the team in ***Harbinger Wars #3,*** we immediately understand that Project Rising Spirit is desperate to contain the disastrous events that have led to the Harbinger War,' Executive Editor *Warren Simons* said. "Normally PRS would send Bloodshot in to clean up its mess, but he's long gone, and the company's in a world of hurt, desperate, grasping at straws. They turn to H.A.R.D. Corps... As we see when we meet Charlie Palmer, PRS' infrastructure has been ripped apart and broken, so there is a sense of desperation in the air."

And how do the other characters—Bloodshot, Peter, and anyone else who interacts with them—respond to their appearance in the Valiant Universe? "The status of the Valiant U is in heavy flux when H.A.R.D. Corps arrive in issue 3 of ***Harbinger Wars,***" Simons continued. "*Joshua Dysart* has built H.A.R.D. Corps as a group of very violent, very dangerous men—trained soldiers with extensive experience—given explicit orders to follow. I don't want to give away the details of how they're introduced, but they're kerosene added to a forest fire."

Were the other Valiant heroes aware of H.A.R.D. Corps prior to their appearance in ***Harbinger Wars?*** "All I'll say is that H.A.R.D. Corps has been around for many years in the Valiant Universe," Simons replied enigmatically.

How crucial will they be to the overall ***Harbinger Wars*** story—and to what comes afterwards? "With Bloodshot, the Renegades,and Toyo Harada tearing Las Vegas apart, the events of the ***Harbinger Wars*** are going to get worldwide attention," Gorinson said. "And a top-secret organization like Project Rising Spirit despises that kind of attention. H.A.R.D. Corps are a desperate last attempt to put the genie back in the bottle and will show us just how ruthless PRS can be when it comes to containing its secrets."

Will this lead to an ongoing ***H.A.R.D. Corps*** series? "Stay tuned!" Gorinson said. "Coming out of ***Harbinger Wars*** at the end of the summer, we have big plans for H.A.R.D. Corps. They might just be a major player in Year Two of the Valiant Universe... if any of them manage make it out of ***Harbinger Wars*** in one piece!"

"Josh and Duane [***Harbinger Wars*** co-writer *Joshua Dysart & Duane Swierczynski]* have done a terrific job here with a great concept," Simons added. "I'm very excited for the fans to see what we're doing with the characters. And it's just the start. There's a ton of H.A.R.D. Corps news coming down the pipeline..."

H.A.R.D. Corps make their entrance in ***Harbinger Wars #3,*** a $3.99 comic by *Joshua Dysart, Duane Swierczynski, & Clayton Henry;* look for it in comic shops on June 12th. The comic will be offered with a standard cover by *Patrick Zircher,* a Pullbox Exclusive Variant cover by *Trevor Hairsine,* a 1-for-20 variant cover by *Khari Evans,* and a 1-for-50 variant cover by *Patrick Zircher.*
